

## DISTRIBUTION AGREEMENT WITH 4AM SOFTWARE PTY LTD.

We are pleased to announce that we have entered into a distribution agreement with company 4AM Software Pty Ltd. Effective from March 1<sup>st</sup>, 2022, 4AM Software Pty Ltd. is appointed as Nanoacademic Technologies Inc's exclusive distributor for the Australia and New Zealand (ANZ) to address these territories by promoting and selling our atomistic and quantum modeling software to a select and value-added market made of public and private organization researchers mostly involved in materials science and advanced technology R&D projects, including quantum technologies.

We are very confident that our partnership with 4AM Software Pty Ltd. will provide our users with an outstanding support and exceptional customer services based on a 2-decade long experience and deep market knowledge. Achieving the highest customer satisfaction and actively developing the long-term use of our products in this promising ANZ market is our main goal.

### About 4AM Software Pty Ltd.:

4am Software represents some of the world's leading organizations to provide state-of-the-art products, solutions and services in the ANZ region. Our core product line is analytics, and each product line forms a synergy with the other. Partnerships with global organizations we have been successful in bringing some of the world leading products and solutions to Australia and NZ and the Asia Pacific region. These products and solutions are based on the most recent technology, developed around the latest operating platforms and software licenses. [www.4amsoftware.com.au](http://www.4amsoftware.com.au)

### About Nanoacademic Technologies Inc.:

Nanoacademic is a Montreal-based, innovative company who builds atomistic and quantum simulation tools to predict the properties of next generation materials and devices. Our software is being used by researchers in public and private institutions around the world to obtain the best modeling data and reduce R&D costs for a broad range of applications. We provide tools for innovation.
